

Porta Germaniae Locations

Mokrina

Aeres Foetidae

(Vis Source)

Aura: Magic 1-2

(Spring) Fetid swamp gas that emerges from mud pockets in a certain area of the *Mokrina* may be bottled to yield *Imaginem vis*

Mokrina

Campus Arcis Caelitis

(Arcane)

Area cleared of tall trees (~1000x400 ft), with shallow reed beds and swampy ground; an earthen hillock at the NW corner rises up ~12 feet above the surrounding terrain, with a long ramp stretching away to the northwest to a beaten track (*Trames Arcis Caelitis*); a large one-story timber lodge sits to the east side of *Trames*, along with a separate kitchen & outhouse; a timber barn faces the lodge on the west side of *Trames*

Kamenný Kaluž

()

The Stone Puddle is a shallow pool in the *Mokrina* with some sort of large stepped stone structure buried beneath it

Noduli Syrtium

(Vis Source)

Aura: Magic 2-3

(Autumn) Nodules of rare earths bearing *Terram vis* form in the sandbars at low water on the Dyje River along the edge of the *Mokrina*

Plumae

(Vis Source)

Aura: Magic 2

(Autumn) Flock of magical migratory egrets leave feathers bearing *Creo vis* in their nests in the lower *Mokrina*
